- Canada is facing a severe shortage of computing professionals but few high school students are choosing to study computer science in high school or university.

# Labour shortage could cripple Canada's tech industry: report

David George-Cosh, Financial Post

Published: Monday, January 21, 2008

Canada's technology companies will soon face a shortage of workers that could cripple the sector and deal a harsh blow to the Canadian economy, according to a report published by a coalition of industry professionals.

More than 90,000 jobs in the information technology sector will need to be filled in the next three to five years and could potentially impact the Canadian economy to the tune of \$10.6-billion, said Conference Board of Canada vice-president of organizational effectiveness, Dr. Michael Bloom.

"The problem is much bigger than any of us at the Conference Board has identified," said Mr. Bloom.

A "perfect storm" of socio-demographic factors, negative perceptions of the tech sector following the bubble burst of 2002 and a significant drop in university enrolment in IT programs across Canada has all come together to create this dire scenario, said Mr. Bloom.

90,000  
jobs!

New jobs during the period 2006-2016

# BEST JOBS IN AMERICA

MONEY Magazine and Salary.com rate careers on salary and job prospects.

By Tara Kalwarski, Daphne Mosher, Janet Paskin and Donna Rosato

## Top 10 best jobs

MONEY Magazine and Salary.com researched hundreds of jobs, considering their growth, pay, stress-levels and other factors. These careers ranked highest. (more)

1. Software Engineer
2. College professor
3. Financial adviser
4. Human Resources Manager
5. Physician assistant
6. Market research analyst
7. Computer IT analyst
8. Real Estate Appraiser
9. Pharmacist
10. Psychologist

But...

# Computing is Excitement...

# Computer Science is Cool

- What qualities define a computer scientist?
  - Creative
  - Into Social Networking
  - Analytical – good at problem solving
  - Interested in lots of things outside of CS
    - Biology, politics, games, music, sports
  - Socially Aware
- Development/poverty issues, the environment,...

**Really???** Yes – the new geek is all of these things!

[http://farm4.static.flickr.com/3115/2731100558\\_148e088172.jpg](http://farm4.static.flickr.com/3115/2731100558_148e088172.jpg)

# What do Computer Scientists do?

Help people do their jobs!

- Take care of our money – financial sector
- Keep our records – e-medical records, e-gov't
- Create new ways of business, e.g. eBay, Amazon

# Entertain Us

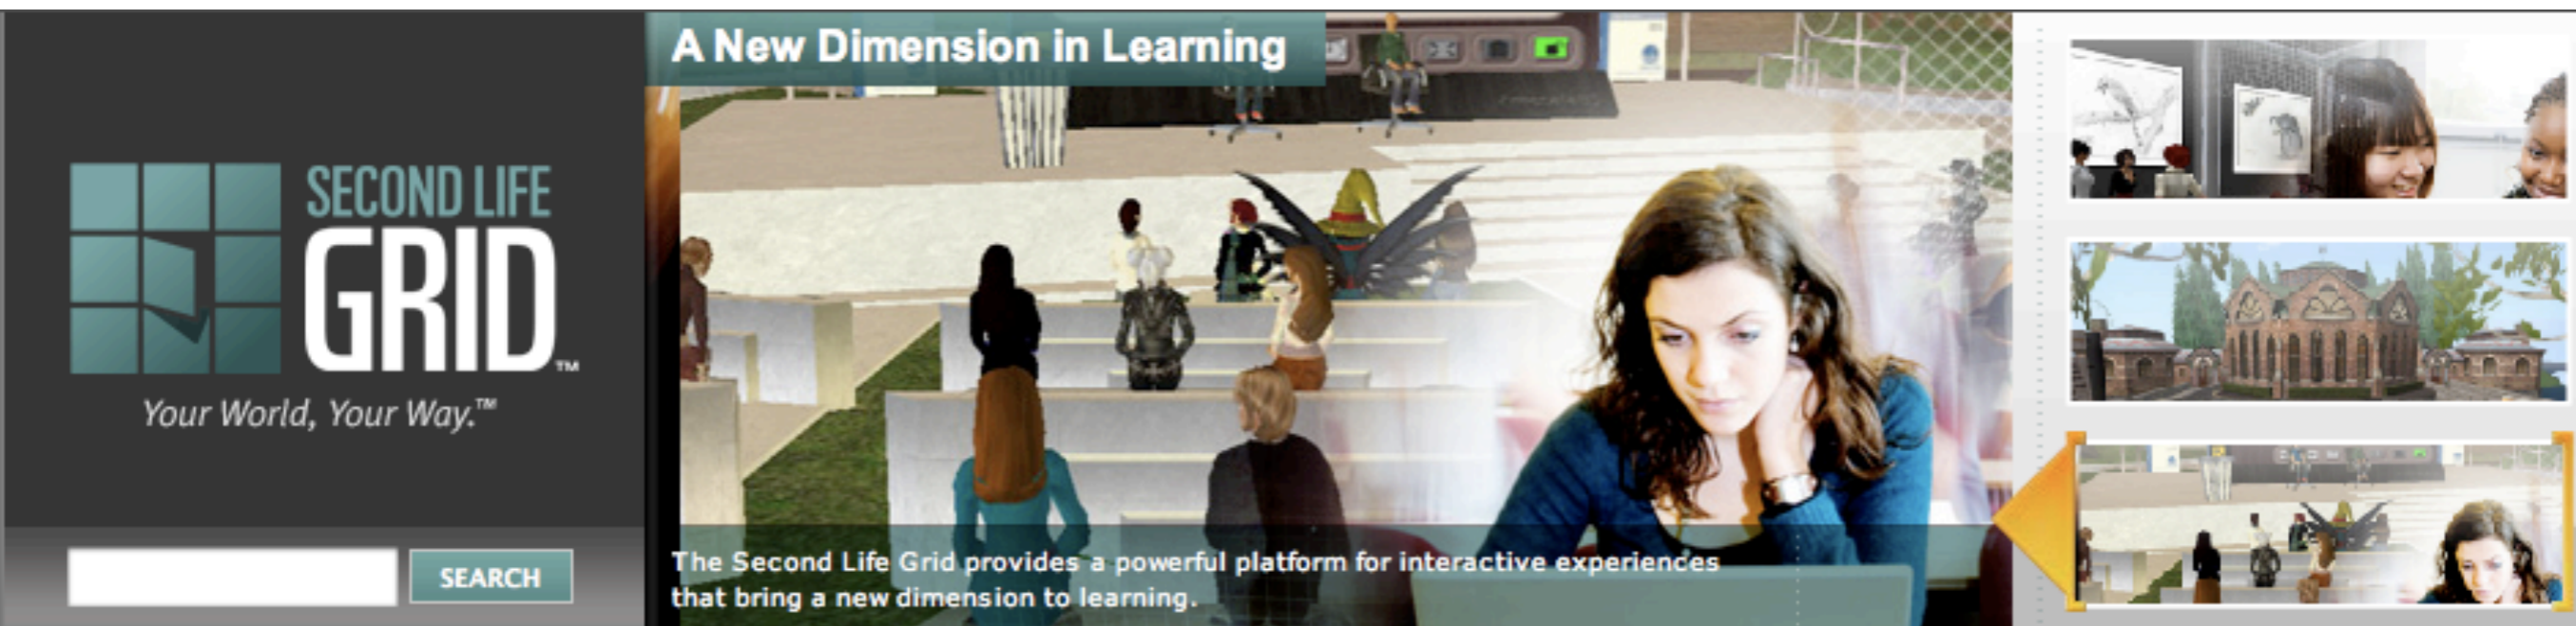

- Digital music, animation, special effects in movies, P2P file sharing, computer games and devices, digital photography and art

# Help us connect with each other

- Cell phones, iPods and podcasts
- Social networks like Facebook, MySpace and Second Life
- Google – search the world
- GPS – travel the world

**SECOND LIFE GRID™**  
Your World, Your Way.™

**SEARCH**

**A New Dimension in Learning**

The Second Life Grid provides a powerful platform for interactive experiences that bring a new dimension to learning.

# Help the World

- Closing the digital divide, e.g. One Laptop Per Child
- Monitoring the environment

# Computing is... People

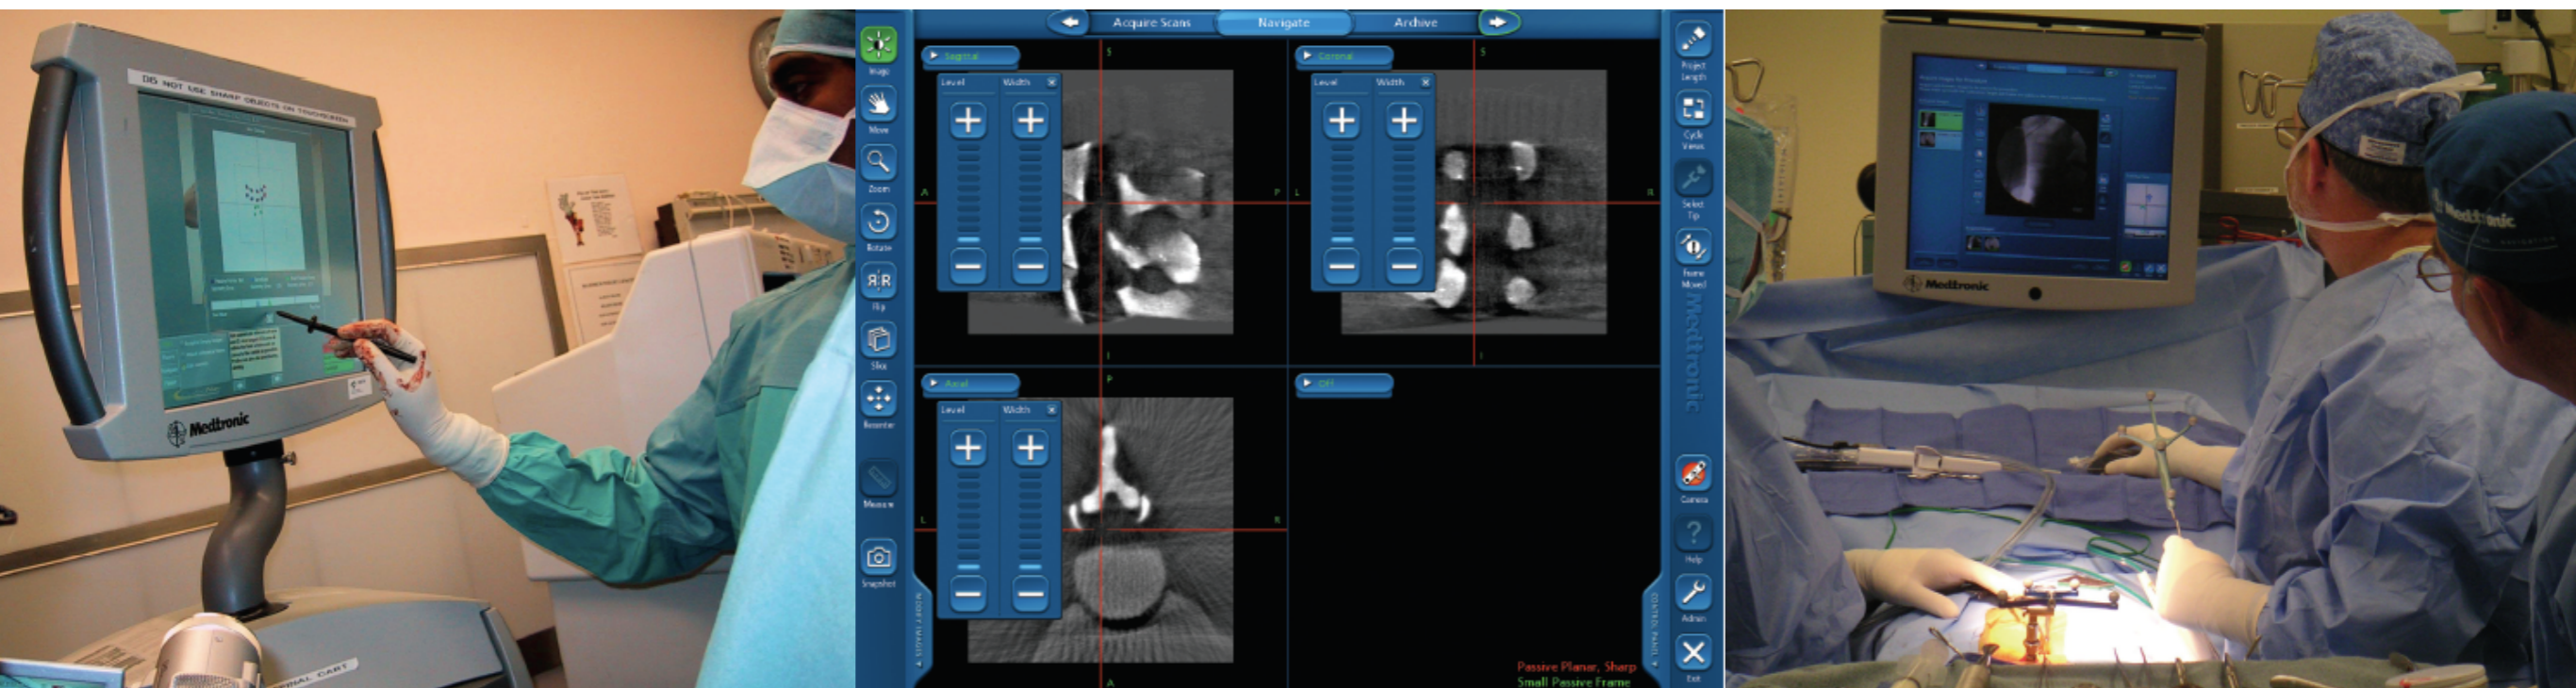

- Mary Lou Jepsen – One Laptop per Child
  - pioneer in developing display technologies
    - flat-panel televisions, holography,
    - laser displays and day-lighting (OLPC)
  - built the world's first holographic video system and the largest hologram in the world - a city block in Cologne
  - <http://laptop.org/vision/people/MaryLouJepsen/>

# CS is a good start for... Medicine

- Medical robotics, electronic health records, public health and food safety surveillance, smart drug delivery, health informatics

# CS is a good start for...

## Law

- Modern lawyers need to understand the technologies that drive the entertainment industry, the publishing industry and other creative endeavors
- New technologies have created new crimes that need lawyers and law makers who understand the technology and the people behind the technology

# Just the Facts...

- High-tech employees earn 45% more than the average Canadian...Statistics Canada
- Jobs in the CS field are international... opportunities in all countries
- Good field for women...diversity is needed!
- A career in CS is good now and in the future!
- A career in CS is secure, safe and exciting
